

May 11, 2016

Dear Mr. Mike:

It was so great to have you here at our center today. The children really enjoyed your poems and your knowledge of dinosaurs. It was an interactive approach that fits well with what we do here at Head Start. It was such a pleasure to host you and your dinosaurs and Pterosaurs in all our classrooms. Please thank the sponsors on our behalf, without their generosity our students would not have been able to have you come to Granite Street Site.

Just some reviews:

“A dino bone, you have got to be kidding me” from a 3 year old student.

When asked how big “On top of the school!!!!” one 4 year old student in awe of the size of the Stegosaurus.

Thank you again, I am sure our students will be talking about this for weeks to come. Thank you for making the end of year fun!!!

Sincerely,

Carmen Dones  
Center Director
