To Whom It May Concern:

It is with great pleasure that I recommend Michael Sgrignoli. We have had him visit Martin Library several times, to perform his dinosaur program, as part of our *Summer Reading Club* programming.

Mike's 'Dinorific Poetry' program has a great deal of educational value, presented in a fun and engaging manner, for both the children and their caregivers. Each year he adds something new and exciting. The interactive dinosaur game show this past summer was very well-received by the audience. Lots of learning occurred – accompanied by a great deal of laughter.

Mike has always displayed a high degree of dependability and professionalism. He brings all the equipment he needs, arrives in a timely manner to setup and stays afterward to answer any questions the children and families may have. I also appreciate that he brings copies of his books along for sale. Many times the families purchase the books so they can continue their learning and exploration at home, as well as recall some favorite poems he shared during the performance.

"Mr. Mike" would be an asset to any organization, and I am happy to give him my wholehearted endorsement.

Sincerely,

Trish Bissett
